PROFESSIONAL SUMMARY

Software Engineer with production experience building scalable API-driven systems (Spring Boot, PostgreSQL). Delivered 25+ APIs and optimised high-traffic endpoints to sub-200ms latency. Experienced across 5 internships, including enterprise systems at Orange and a live marketplace platform at Rilygo. Strong focus on performance, clean architecture, and real-world deployment.

PROFESSIONAL EXPERIENCE

Backend Developer | Rilygo · Morocco · Jan 2026 – Present

- Architected service marketplace backend (Spring Boot, PostgreSQL) with JWT + RBAC auth supporting provider, client, and admin roles.
- Built and versioned 25+ REST APIs for auth, reservations, and payments; kept p95 response times under 200ms through query optimisation.

Full Stack Developer Intern | Wehelp · Nov – Dec 2025

- Shipped full-stack features (Java + React) across 2 release cycles in 6 weeks; resolved 15+ code-quality issues through peer reviews.

Machine Learning Intern | Codveda Technologies · Sep – Oct 2025

- Fine-tuned classification models (Python, TensorFlow, scikit-learn) reaching 89% accuracy (+7 pts over baseline); built stakeholder KPI dashboards.

Software Engineering Intern | Orange Business · Morocco · Jul – Aug 2023

- Maintained enterprise Java/Spring Boot apps; optimised slow SQL queries cutting report generation time by ~30%.

Software Engineering Intern | Orange Business · Morocco · Jul – Aug 2022

- Built Employee Management System (Java, Spring Boot, MySQL) handling 200+ records; introduced Agile sprint cadence to intern team.

PROJECTS

AI Trading Recommendation System (TradeBot) · TypeScript · Python · SQL · [TradeBot](#)

- Designed ML-based recommendation engine using real-time market data
- Built backend services for prediction pipeline (Python) and API exposure
- Integrated React dashboard for visualising trading insights

E-commerce Platform · Laravel (PHP) · React · SQL · [innoland.ma](#)

- Developed and deployed a full-stack e-commerce platform with a custom admin dashboard for managing products, orders, and users
- Integrated WooCommerce REST API for real-time synchronization of product catalog, orders, and inventory
- Designed scalable backend services and database schema and deployed the application on Hostinger with CI/CD automation

School Management System · TypeScript · Laravel · React · MySQL · [GitHub](#)

- Role-based dashboards for admins, teachers, and students; class scheduling, payment tracking, automated email notifications.

EDUCATION

B.Sc. Computer Engineering · Ted University, Ankara, Turkey · 2020 – 2025

Secondary Field: Data Analytics · English-taught programme · IELTS C1

TECHNICAL SKILLS

Languages: Java · Python · TypeScript · JavaScript · SQL

Backend: Spring Boot · Laravel (PHP) · NestJS · RESTful APIs · Microservices · JWT · WebSocket

Frontend: React · Next.js · HTML5 · CSS3

Data & ML: PostgreSQL · Redis · TensorFlow · scikit-learn · LLM API Integration · Data Analytics

DevOps: GitHub Actions · CI/CD · Docker · Git · Agile Scrum · AWS (EC2, S3)

Spoken languages: Arabic (native) · French (fluent) · English C1 (IELTS) · Turkish (beginner)
